Vanguard All-Equity ETF Portfolio

Management Discussion of Fund Performance

Investment Objective and Strategies

Vanguard All-Equity ETF Portfolio (the "ETF") seeks to provide long-term capital growth by investing primarily in equity securities. The ETF may do so either directly or indirectly through investment in one or more exchange-traded funds managed by Vanguard Investments Canada Inc. (the "Manager") or an affiliate or certain other investment funds ("Underlying Funds").

Under normal market conditions, the sub-advisor will strive to maintain a long-term strategic asset allocation of 100% equity securities. The portfolio asset mix may be reconstituted and rebalanced from time to time at the discretion of the sub-advisor.

The portfolios of the Underlying Funds are expected to consist of index funds that provide exposure to broad-based equity markets.

Risk

The risks associated with an investment in the ETF remain as discussed in the ETF's most recent prospectus. During the period that began April 1, 2024, and ended March 31, 2025, there were no changes to the ETF that materially affected the overall risk level associated with an investment in the ETF.

Results of Operations

For the 12 months ended March 31, 2025, the ETF returned 14.04%. The FTSE Global All Cap Index, a broad-based equity index, returned 13.68%.

The ETF's performance was consistent with its investment strategy of maintaining a long-term strategic asset allocation to equity securities. During the reporting period, all exposures contributed positively to portfolio performance led by Canadian and Emerging Markets equities.

The FTSE Global All Cap Index is a market capitalization weighted index representing the performance of large-, mid- and small-capitalization stocks globally.

Recent Developments

Global financial markets have been volatile with significant fluctuations in stock and bond markets. Concerns about the outlook for economic growth, inflation and U.S. tariff uncertainty have been impacting markets. High valuations for a narrow group of technology-orientated companies have started to correct. We continue to see the market wrestling with important top-down questions, notably the U.S. administration's desire to reshape global trade, many of which are seeing a wider range of potential outcomes. The fluid nature of the current geopolitical trade situation calls for caution before taking immediate action.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the ETF. You can obtain a copy of the annual financial statements at your request, and at no cost, by calling 1-877-410-7275, by writing to us at 22 Adelaide Street West, Suite 2500, Toronto, ON M5H 4E3 or by visiting our website at vanguard.ca or SEDAR+ at sedarplus.com. You may also contact us using one of these methods to request a copy of the ETF's interim financial report, proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

Related Party Transactions

Vanguard Investments Canada Inc. (the "Manager") is the manager, trustee, portfolio manager and promoter of the ETF, and is entitled to receive a management fee for its services that is paid by the ETF to the Manager (see “Management Fees” below).

From time to time, the Manager may, on behalf of the ETF, enter into transactions or arrangements with or involving certain persons or companies that are related to the Manager when, in the discretion of the Manager, it would be in the best interests of the ETF to do so. The purpose of this section is to provide a brief description of any transaction or arrangement with or involving the ETF and a related party.

Sub-Advisor

Vanguard Global Advisers, LLC ("VGA"), an affiliate of the Manager, has been retained by the Manager to act as sub-advisor to the Manager in connection with the ETF. As sub-advisor, VGA manages the investment portfolio of the ETF, provides analysis and makes investment decisions, subject to continuing oversight by the Manager. VGA is a registered investment advisor in the United States with offices based in Valley Forge, Pennsylvania. As compensation for its services as sub-advisor, VGA is entitled to receive a portion of the management fee that is paid by the ETF to the Manager.

With respect to the continuing oversight of the affiliate by the Manager, the Manager has relied on a positive recommendation and standing instruction that it has received from the ETF’s Independent Review Committee (“IRC”). The standing instruction requires the Manager to comply with its current policy and procedures on monitoring services provided by the sub-advisor of the ETF and to report periodically to the IRC, describing each instance in which the Manager relied on the standing instruction and its compliance with the policy and procedures.

Management Fees

As set out under Related Party Transactions, the Manager is the manager, trustee, portfolio manager and promoter of the ETF. As compensation for its services, the Manager is entitled to receive a maximum annual management fee of 0.22%, payable monthly, calculated based on the daily net asset value (“NAV”) of the ETF.

The ETF invests primarily in Canada-domiciled funds (“Canada-domiciled Vanguard Funds”) managed by the Manager, which is entitled to receive a fee for acting as manager of the underlying Canada-domiciled Vanguard Funds. To ensure that there is no duplication of fees chargeable in connection with the ETF and its investment in the underlying Canada-domiciled Vanguard Funds, the management fee payable by the ETF to the Manager as set out above is reduced by the aggregate of the management fee payable by the underlying Canada-domiciled Vanguard Funds to the Manager and certain expenses of the underlying Canada-domiciled Vanguard Funds that are paid directly by the underlying Canada-domiciled Vanguard Funds (together, the “Underlying Canada-domiciled Vanguard Funds total expense ratio”). The Underlying Canada-domiciled Vanguard Funds total expense ratio is embedded in the market value of the underlying Canada-domiciled Vanguard Fund shares in which the ETF invests.

The major services paid for out of the management fee include fees payable to the custodian, registrar and transfer agent, as well as fees payable to other service providers, including the index providers, retained by the Manager.

The Manager may, in its discretion, agree to charge the ETF and/or certain unitholders a reduced management fee as compared with the management fee that it otherwise would be entitled to receive, provided that the amount of the reduced management fee is distributed periodically by the ETF to the unitholder as a management fee distribution. Any reduction will depend on a number of factors, including the amount invested, the NAV of the ETF and the expected amount of account activity. Any tax consequences of a management fee distribution will generally be borne by the unitholder who receives the distribution.

Financial Highlights

The following tables show selected key financial information about the ETF and are intended to help readers understand the ETF's financial performance for the periods indicated.

The ETF's Net Assets Per Unit[1]

	Financial Years Ended March 31,				
	2025	2024	2023	2022	2021
Net assets, beginning of period	**$40.15**	**$34.04**	**$35.30**	**$32.78**	**$23.43**
Increase (decrease) from operations					
Total investment income	0.88	0.80	0.76	0.68	0.68
Total expenses	(0.04)	(0.03)	(0.03)	(0.03)	(0.03)
Realized gains (losses) for the period	0.33	0.13	0.11	0.32	0.17
Unrealized gains (losses) for the period	4.19	6.29	(0.94)	1.24	8.23
Total increase (decrease) from operations[2]	**5.36**	**7.19**	**(0.10)**	**2.21**	**9.05**
Distributions					
From income (excluding dividends)	(0.38)	(0.38)	(0.40)	(0.29)	(0.26)
From dividends	(0.32)	(0.31)	(0.27)	(0.21)	(0.20)
From capital gains	(0.08)	(0.05)	(0.25)	(0.13)	—
Return of capital	(0.01)	(0.00)	(0.00)	(0.01)	(0.01)
Total annual distributions[3]	(0.79)	(0.74)	(0.92)	(0.64)	(0.47)
Net assets at end of period	**$45.08**	**$40.15**	**$34.04**	**$35.30**	**$32.78**

1 The financial highlights are derived from the financial statements prepared in accordance with IFRS Accounting Standards, which allow net assets to be calculated based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. There may be differences between the net assets calculated for the purpose of processing unitholder transactions and the net assets attributable to holders of redeemable units used for financial statement reporting purposes as at March 31, 2025, 2024, 2023, 2022, and 2021.

2 Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.

3 Distributions were paid in cash or certain distributions were reinvested in additional units of the ETF. Immediately following such reinvestment, the number of units outstanding was consolidated so that the net asset value per unit following the distribution and reinvestment is the same as it would have been if the distribution had not been paid. Actual distributions may vary slightly owing to rounding.

Ratios and Supplemental Data

	Financial Years Ended March 31,				
	2025	2024	2023	2022	2021
Total net asset value (000's)[1]	$6,455,630	$3,956,374	$2,517,693	$1,994,090	$879,195
Number of units outstanding (000's)[1]	143,209	98,530	73,960	56,490	26,820
Management expense ratio[2]	0.24%	0.24%	0.24%	0.24%	0.24%
Management expense ratio before waivers or absorptions	0.24%	0.24%	0.24%	0.24%	0.24%
Portfolio turnover rate[3]	3.32%	2.66%	3.09%	4.76%	6.90%
Trading expense ratio[4]	0.00%	0.00%	0.00%	0.00%	0.00%
Net asset value per unit[1]	$45.08	$40.15	$34.04	$35.30	$32.78
Closing market price[1]	$45.06	$40.17	$34.00	$35.33	$32.85

1 This information is provided as at March 31 of the year shown.

2 Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) and includes a proportionate share of underlying Vanguard funds expenses, for the stated period and is expressed as a percentage of daily average net asset value during the period.

3 The ETF's portfolio turnover rate indicates how actively the ETF's sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. The higher a portfolio's turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.

4 The trading expense ratio represents total commissions and other portfolio transaction costs expressed as a percentage of daily average net assets during the period. If, during the period, the ETF charged a fee to designated broker/dealers to offset the impact of certain transaction costs associated with a purchase or redemption of units of the ETF, the transaction costs used in the trading expense ratio would have been reduced by those fees.

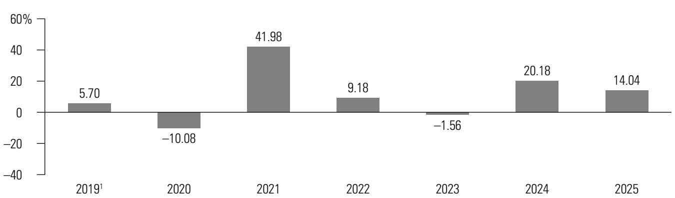
Past Performance

The ETF's performance information assumes that all distributions made by the ETF in the periods shown were reinvested in additional units of the ETF. The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. How the ETF has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the ETF's annual performance for the years shown and illustrates how the ETF's performance has changed from year to year.

The chart shows in percentage terms how much an investment made on the first day of the period would have increased or decreased by the last day of the period.



1 Return from January 29, 2019 (the ETF's commencement date), to March 31, 2019.

Annual Compound Returns

The following table compares the historical annual compound returns of the ETF with those of a broad-based equity market index, FTSE Global All Cap Index.

A brief description of the index and a discussion regarding the relative performance of the ETF as compared with the index can be found in the Results of Operations section.

Annual Compound Returns
Periods Ended March 31, 2025

	One Year	Three Years	Five Years	Since Inception[1]
Vanguard All-Equity ETF Portfolio	14.04%	10.50%	15.90%	11.79%
FTSE Global All Cap Index	13.68	12.06	15.78	12.64

1 January 29, 2019

Summary of Investment Portfolio

The prospectus and other information about the underlying investment funds in the portfolio are available at sedarplus.com.

Portfolio Allocation
As at March 31, 2025

This report may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent certain beliefs regarding future events. By their nature, forward-looking statements involve assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. Readers of this document are cautioned not to place undue reliance on any forward-looking statements contained in this report as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the ETF may invest and the risks detailed from time to time in the ETF's prospectus. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the ETF, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Because of the potential impact of these factors, Vanguard Investments Canada Inc. does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
