Performance**
June 30, 2025

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Annual Management Report of Fund Performance as at June 30, 2025

Fidelity Advanced U.S. Equity Fund

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements for the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Fidelity Advanced U.S. Equity Fund (Fund) aims to achieve long-term capital growth. It invests primarily in equity securities of U.S. companies. The Fund uses a proprietary quantitative model based on advanced research capabilities in the construction of its portfolio.

Strategies: In order to achieve its investment objective, the portfolio management team uses quantitative techniques that analyze fundamental research to systematically construct a broadly diversified portfolio. Advanced techniques developed through research capabilities are used in evaluating multiple factors to achieve a desired risk exposure or return characteristic for the Fund through the model's dynamic weightings to each factor. The model also considers current market conditions (e.g., at the macroeconomic level), how the Fund is positioned from a security and portfolio-level risk perspective, and trading opportunities.

The model scores each security in the Fund's investable universe based on the proprietary data generated by fundamental research analysts, which includes analyst research ratings, internal forecasts and assessments of a company's financial condition, industry position, economic and market conditions, earnings estimates, operational performance and quality of management; and external market data, which includes investor sentiment changes (e.g., bullish or bearish indicators), investment analyst research, option volumes on securities, short interest on securities, fund flows, corporate actions and events, and management meetings.

The portfolio management team may use non-traditional or alternative data sources, including credit card data, satellite imagery, foot traffic, and advertisement spending, or artificial intelligence tools to aggregate and summarize data from data sources. In certain circumstances and based on factors such as liquidity and market volatility, the portfolio management team may override the quantitative model's results in the selection of the Fund's securities.

The Fund may depart from its investment objectives or strategies by temporarily investing all or a portion of its assets in cash or fixed income securities issued or guaranteed by a Canadian or U.S. government, government agency or company.

Risk

The risks associated with investing in this Fund remain as discussed in the prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund is suitable for medium- to long-term investors who want to seek exposure to U.S. equity securities, and can handle the volatility of returns generally associated with equity investments. The Fund is not an appropriate investment for investors with a short-term investment horizon. To invest in the Fund, investors should be willing to accept a medium level of risk. The suitability of the investment has not changed from what has been disclosed in the prospectus.

Results of Operations

The results of operations of the Fund and its benchmark will be available when the Fund completes one full year of operation.

Market overview:

The overview of the market in which the Fund operates will be available when the Fund completes one full year of operations.

Factors affecting performance:

Factors affecting the Fund's performance will be available when the Fund completes one full year of operation.

Portfolio changes:

From the commencement of operations on January 23, 2025, the Fund initiated all positions required to establish the portfolio.

Recent Developments

Portfolio managers Christopher Lee and Dr. Wenyu Zhao employ a systematic approach to U.S. equity investing by combining the insights of fundamental analysts with the efficiency of quantitative models. Built by Fidelity's Quantitative Research & Investments (QRI) team, the strategy leverages analyst ratings, earnings forecasts, and company reports, processed through machine learning and artificial intelligence (AI) to identify high-conviction investment ideas. These signals are used to optimize portfolio weightings, reduce emotional biases, and enhance consistency through risk-adjusted, data-driven decision-making. The Fund seeks to be positioned in areas where Fidelity's analyst team has strong conviction, and its disciplined process aims to analyze vast amounts of information efficiently. The Fund is designed for investors seeking U.S. equity exposure with the benefits of both active research and quantitative positioning.

Fidelity Investments Canada ULC became a holder of more than 10% of the outstanding securities of the Fund in the period ending June 30, 2025.

Effective February 11, 2025, Frances Horodelski retired from the Independent Review Committee (IRC), and James E. Cook of Etobicoke, Ontario, became a member of the IRC.

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity Advanced U.S. Equity Fund Management Discussion of Fund Performance – continued

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including Fidelity Management & Research Company LLC, to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$34,000 for the period ended June 30, 2025.

Administration Fee

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$5,000 for the period ended June 30, 2025.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were less than \$500 for the period ended June 30, 2025. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Net asset value per security, end of period	\$ 23.8812

Financial Highlights Footnotes

^A For the period January 9, 2025 (inception date) to June 30, 2025.

^B This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.

^C Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.

^D Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.

^E This information is provided as at period end of the year shown.

^F Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.

^G Effective January 23, 2025, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.

^H The trading expense ratio represents total commissions, other portfolio transaction costs and short selling fees and cash borrowing costs on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable. Prior year ratios may have been adjusted to comply with current period presentation.

^I The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	Management Fees (%)	Dealer Compensation (%)	Investment management, administration and other (%)
Series B	1.600	62.50	37.50
Series F	0.600	-	100.00
ETF Series	0.600	-	100.00

Fidelity Advanced U.S. Equity Fund

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The year-by-year return of the Fund will be available when the Fund completes one full year of operation.

Annual Compound Returns

The Fund and its benchmark's average annual returns will be available when the Fund completes one full year of operation.

A discussion of Fund performance can be found in the Results of Operation section of this report.

The Russell 1000 Index is a subset of the larger Russell 3000 Index and represents the 1,000 top companies by market capitalization in the United States.

Each Series will have different returns because of differences in management fees and expenses.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
